PROJECTS

INVENTORY MANAGEMENT APP – MERN

Feature Overview: "Add real-time inventory tracking and notifications to our inventory management app to enhance its functionality and user experience. This feature allows users to monitor inventory levels and receive alerts when certain thresholds are met, ensuring timely restocking and better inventory management."

ZOOM CLONE – NEXTJS

Feature Overview: "Integrate **WebRTC** for real-time video and audio communication and use a secure signaling server to manage connections. Combine this with robust authentication to ensure that only authorized users can join and create meetings."

BLOG–APP – NEXTJS

Feature Overview: "A feature-rich blog app built with Next.js, offering fast performance, **SEO** optimization, and a smooth user experience. It supports dynamic routing, server-side rendering, and **API** integration for fetching and managing posts. The app is designed for scalability, ensuring a seamless reading and writing experience."

EXPERIENCE

Jun 2019 – present

COMPUTER AGE MANAGEMENT SERVICES LIMITED – CHENNAI

Lead Specialist

- Retrieved and managed client-specific data by writing and executing customized **SQL** queries.
